

CONNECTED TO INNOVATION

prevost BLOWGUNS

New-generation blowguns

*Compact compressed air
blowguns with integrated plug*

The **prevost** blowgun fits comfortably in the grip of your hand and is easy to use; making it the ideal tool for any work environment.

They come standard with an embedded PREVOST plug and are compatible with all major connection profiles. The plugs connect directly to a **prevost** quick safety coupling to create a perfect ergonomic fit for superior handling.

prevost
safety couplings

An exclusive patented
technology

Profiles

Quickly identify couplings and blowguns

- Color coded international profiles
(button of the coupling and on the blowgun's grip)
- Logical part numbering system

The **prevost** blowgun range is offered in many different sizes and profiles.

A PREVOST plug is embedded directly into the body and eliminates all risk of leaking while connected to the compressed air system.

Innovative design

→ CONSTRUCTION

- Body and lever: polyamide composite
- Seals: nitrile
- Valves: polyacetal (POM)
- Plug: nitrided steel, scratch and corrosion resistant

All materials are compliant with the RoHS¹ directive and REACH² regulations.

→ TECHNICAL SPECIFICATIONS

- Maximum operating pressure: 174 psi
- Recommended pressure: 87 psi
- Operating temperature range: +5°F to 158°F

→ USE

- Fluid: compressed air
- Applications: blowing, dust removal, cleaning and drying of tools and workstations
- Sectors of use: industrial, automotive, manufacturing, wood working, etc.

→ ENERGY SAVINGS

- Low air consumption
- Leak free from the plug being directly embedded into body of the blowgun

→ PERFORMANCE

- Powerful and precise blowing
- Flexible grip for progressive and controlled blowing, allowing the precise adjustment of air flow

1. RoHS directive 2002/95/EC: relating to the restriction of the use of certain hazardous substances in electrical equipment (lead, mercury, cadmium, hexavalent chromium, polybrominated bi-phenyls -PBBs- and polybrominated di-phenyl ethers -PBDEs-)

2. REACH regulations relating to the improvement of the management of risks related to the usage and dangerous properties of chemicals manufactured or imported into the EU

→ SAFETY

- Reinforced safety thanks to the paired **prevoS1** quick coupling

→ EASE OF USE

- Ultra-modern ergonomics and design intended to facilitate the user's work
- Very compact, pocketable design ensuring easy handling
- High-tech composite body is light weight and insulated to regulate temperature

→ EXTENDED SERVICE LIFE

- Durable construction for a long lasting tool
- Air tight design to prevent contamination from external particles

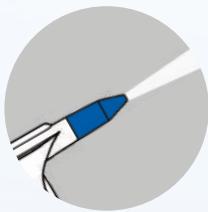

Different nozzle options

OSHA nozzle

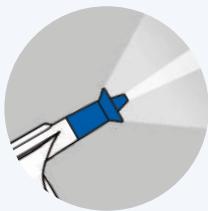

- Material: polyamide composite
- Characteristics: high flow rate, limited outlet pressure of 30 psi
- Complies with OSHA 29 CFR 1910.242 (b)
- Anti-scratch tip prevents damage to surrounding equipment

PRE nozzle

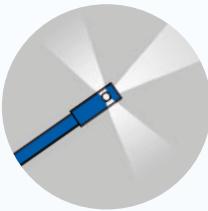

- Material: polyamide composite
- Characteristics: standard blowgun, direct, concentrated jet
- Anti-scratch tip prevents damage to surrounding equipment

ECR nozzle

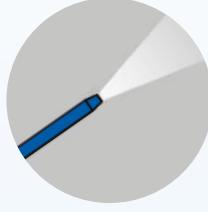

- Material: polyamide composite
- Characteristics: air screen blowgun, protects against dust and chippings
- Anti-scratch tip prevents damage to surrounding equipment

MTL OSHA nozzle

- Material: galvanized steel
- Characteristics: long and narrow nozzle, powerful blowing
- Complies with OSHA 29 CFR 1910.242 (b)

MTL nozzle

- Material: galvanized steel
- Characteristics: blowgun with long tapered metal nozzle

SIL nozzle

- Material: polyamide composite
- Characteristics: silent blowgun (77dB) limits noise in workshop
- Complies with OSHA 29 CFR 1910.242 (b)
- Anti-scratch tip prevents damage to surrounding equipment

Nozzle Type	Air consumption (SCFM) at 87 psi	Noise level (dBA) at 87 psi	Blowing force (oz) at 87 psi	Dynamic pressure (psi) at 0.39 in. at 87 psi
OSHA standard	7.7	87	9	15
MTL standard	11.8	89	14	32
MTL OSHA standard	7.7	85	9	33
OSHA pocket	8.2	89	6	7
PRE standard	8.2	85	10	36
ECR standard	14.6	87	5	30
SIL standard	5.5	74	6	3

Range

Standard model

- Available in different nozzles
- Hanging ring
- Available packaging for retail sales

Pocket model

- Ultra-compact model with OSHA nozzle
- Grooved grip
- Available packaging for retail sales

Accessories

Wall support bracket: BG FIX

- Wall mounted bracket for blowguns is secure but offers a quick release, without damaging the bracket or blowgun.
- Magnetized option for easy mounting (BG FIXM)
- Compatible with **prevost S1** and **27202** blowgun ranges
- Mounting distance: 2.76 inches

Wall support bracket

Protectors

- 2 sizes available
- Provides a 100% anti-scratch connection between the coupling and the hose, by covering the clamp

Rubber coupling protectors
